Ratings

“Strong asset quality, benefiting from guarantees and insurance”

“We assess government support to be very high for all of SEK's debt classes.”

“The commitment as an owner and the proven support by the Swedish government to SEK result in our assessment of a very high probability of government support for SEK's senior, junior senior (often referred to as senior non-preferred) and subordinated debt classes.”

“...we expect the Government of Sweden to inject capital – if needed – well ahead of any potential breach of SEK's minimum regulatory requirements, significantly reducing the risk of loss to all creditor classes.”
